

Company description

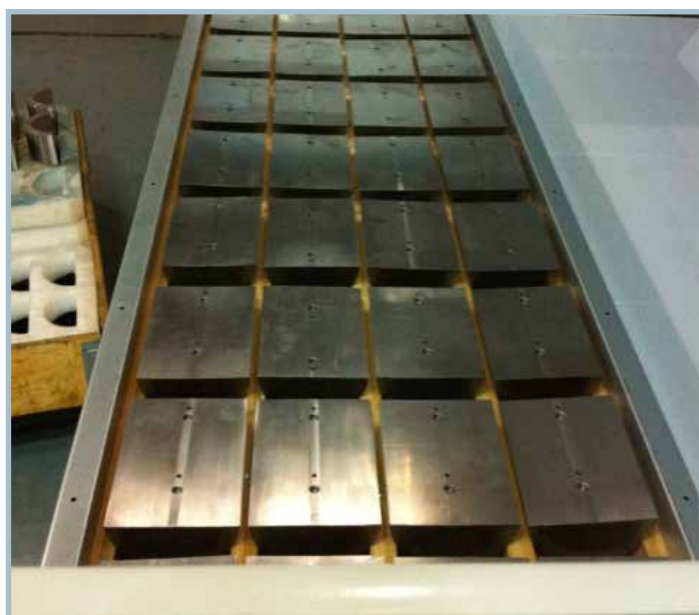

QUALI STEEL (Shanghai) Co., Ltd, was set up in June 2009. The headquarter QUALI-ACIER is located in France. Business scope is to provide special metals which are used for medical equipment, automobile, and aerospace, and provide processing, polishing service, cutting service for metal and plastic production.

✓ Problem description

Because of Modula LIFT outstanding performances in their HQ, Quali-steel was looking for a similar solution for their facility in Shanghai too. Main feature requested by Modula LIFT was to store their metal parts in a clean and close solution in order to meet their high standard in terms of quality and security.

✓ Solution description

Thanks to Modula LIFT, they succeed to store metal pieces and special metal parts, in one close and compact vertical warehouse controlled by the person who has the permission. The goal has been reached!
