

PRODUCT GUIDE

Worden

Worden inspires discovery and collaboration - designed to meet today's needs and adapt over time.

Our solutions are more than furniture. They transform spaces into inviting places that help people connect to what's important: ideas, technology, and each other. Countless configurations let groups of all sizes learn and work where they want with any technology.

Tables

What we bring to the table.

Whether you are working alone or in a group you need a place to spread out and make your own. Worden creates furniture that supports the way you learn and blends perfectly into the study environments you create. Whether you are looking for classic, contemporary, mobile, flexible or interchangeable, Worden has the table for you.

Academy

Reminiscent of the Mission Style, Academy is traditional in appearance, but contemporary in function. The Academy line is certain to add style and sophistication to any setting.

deGILDE

A design aesthetic of natural and man-made elements, deGILDE is a constructionist approach to technical library furniture. Unmatched by image, deGILDE will entice the discerning eye.

diametron

Diametron is a comprehensively engineered table concept based on a system of die cast connectors, steel support rails, and 2 1/2" diameter metal legs.

American Classics Alcott

Alcott's brushed aluminum ferrule establishes a solid footing and its decorative metallic rails bridge the legs, dressing it with rich detail.

American Classics Hawthorne

Hawthorne is celebrated for its traditional lines and fresh details. Soft sculptured edgeband, gabled corners, and tapered legs make this table a real American classic.

American Classics Twain

Twain is designed with the option of a tapered or turned leg, straight or bowed edgeband. A classic and timeless design with endless possibilities.

Folio

Folio's flexible design creates endless possibilities. No matter which aesthetic you choose, all seamlessly accommodate embedded power and data, integrated lighting, and wire management. No need to choose between a stunning look and practical features. With Folio you get both.

Blumen

Blumen creates an inviting gathering place for projects, presentations and socializing. Three standard power plugs and six USB power ports housed in the center hub allow groups to learn and work together with any kind of technology.

Bridge

Bridge links style and function into a beautiful modern design. It's simple, but oh-so stylish and certain to meld into any space. Add electrical to keep you charged.

Franklin

Where simple meets smart. Franklin's clean lines blend into any new or existing library setting. This line includes everything you need – tables, casegoods, computer stands and display options.

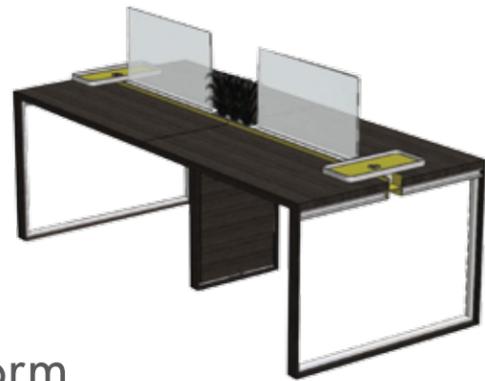

Mix & Max

Let your vision and style shine through with our versatile kid-size furniture. Mix and Max(imize) this collection to make a one-of-a-kind space for children to create, learn, engage and grow.

Myriad

You guessed it – a myriad of options are waiting for you in this high-performing table. Myriad has fresh, light appeal, largely due to its reverse beveled edge and aluminum legs. Available in laminate or veneer with a maple, oak or cherry edge band. Casters, power access and wire management are just some of the options available.

Platform

A cross-market solution. Platform supports a variety of design options and configurations from common to visually private. With hidden power management, and the flexibility for countless work needs, Platform is ideal for any environment.

Tempus

The Tempus Collection offers a modern interpretation of design motifs with historical references to the Arts and Crafts Movement. The style and details add timeless value to this collection.

Teres

Designed with clean, simple lines, Teres is complementary to every library environment. Teres is available with a choice of edgeband, leg style, and optional rail.

Stance

Take a Stance. With components this flexible, it is easy to mix and match pieces for a variety of applications in any setting. Stance works alone or in groups, on the move or in one spot. Use your imagination – the variety of configurations, materials and finishes are endless.

Casegoods

A place for one.

A study carrel or computer work station provides a quiet place to study, research and work. Worden offers personal space with endless options - configurations, heights, finishes, style and details. You will be amazed how good privacy can look.

Academy

Mission style furniture with its simple design of straight lines and solid form, Academy is destined to become a time honored tradition.

diametron

Diametron blends the beauty of wood and the strength of metal to create a stylish study space. Select from a variety of wood finishes, metal colors and adjustable work surface heights.

Folio

Folio offers a broad range of sizes and configurations to let you create workspaces that encourage quiet, individual study. Add one of our three carrel styles to any table you create.

American Classics Alcott

Alcott represents modern style, known for its brushed aluminium ferrule and decorative metallic square detail. Also flexible with adjustable work surface heights.

American Classics Thoreau

A traditional library style highlighted by simple lines and bright windows. Thoreau is available in oak, maple or cherry in a variety of finishes and adjustable work surfaces.

American Classics Twain

Twain casegoods feature classic panels enhanced by the arched tops. Work surfaces are available in a choice of laminates and are adjustable for sitting or standing.

Franklin

Effortlessly hardworking. Exceedingly functional. With plenty of shapes, sizes, and laminates to choose from, Franklin is versatile enough to blend into any environment. Height-adjustable work surface stands nicely alone or shares a side panel with an "adder" to double its efficiency.

Tempus

Tempus workstations are a modern interpretation of the Arts and Crafts movement. Square cutouts and black bands on end panels define this handsome workstation. Tempus quad carrel (shown here) provides a private place for four.

Bridge

Bridge links style and function into a beautiful modern design. It's simple, but oh-so stylish standing or seated heights will keep you connected and your technology fully powered.

deGILDE

deGILDE offers a systems approach to technical furniture. Changeable work surface heights, shelving sections, and add on table components make deGILDE a modular system of options.

Teres

Teres represents a back-to-basics approach that maintains the quality you expect from Worden. Adjustable work surface heights accommodate sitting or standing.

Stance

Straddling the boundary between work and play. Stance is a great place for a group collaboration or with the addition of a carrel rack it becomes a private place for individual study.

Pin-Fast Shelving

Functional, adaptable and economical.

Pin-Fast Shelving is designed to meet all functional shelving requirements with a unique design that can be field modified and altered to fit any space.

Verge

Creating Environments.

Verge moves beyond modest shelving to an architectural solution. With vast design possibilities, including radius options, distinctive materials and edge treatments, Verge allows creative freedom. Integrated benches and counter work surfaces can transform landscapes into work environments supporting concentration and connection.

Display

We love to show off.

Displays draw attention to new books or special collections and play a vital role in keeping merchandise moving. Double sided gondolas, tiered displays and pyramid units allow for items to be placed on all sides and approached from any direction — perfect for entrances, lobbies and gathering areas where people love to browse.

Modular Work Stations

Flexible solutions for every space, style, and situation.

No matter what kind of workstation you want to create, MWS has everything you need to make it happen. We design our equipment around your equipment, giving you a wide selection of options, details and styles – and helping you combine them into your own unique solutions. Choose from our selection of 12 standard end panel designs or create your own custom design.

Platform

Customize it.

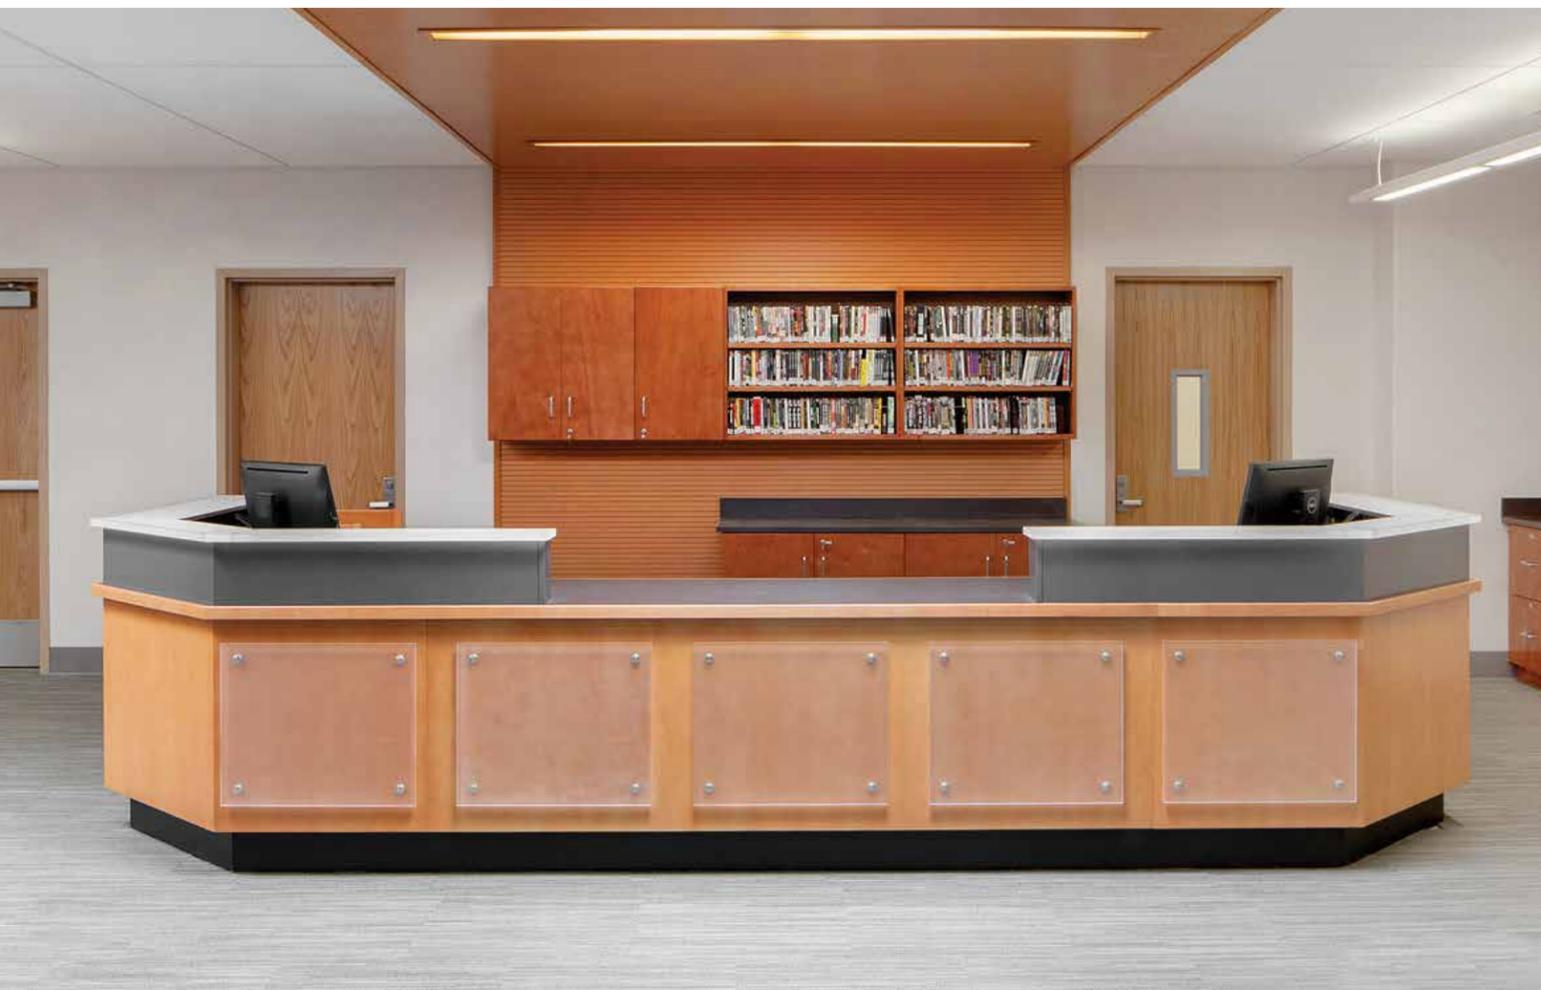

Platform recognizes collaboration today is knowledge tomorrow. Platform supports a variety of design options and configurations from common to visually private. With hidden power management, and the flexibility for countless work needs, Platform is ideal for any environment.

SNAP!

Mirage & x Xtreme

Panels set the tone for an office's interior design while giving stability and support to the overall system. Our high-quality product lines provide maximum flexibility in function and design, at refreshingly affordable prices.

Reception, Reference, Concierge and Circulation Desks

The place for information.

No longer just an input/output station, but rather the focal point of a space, this area acts as the major point of service, traffic and information. Large or small, standard or custom, Worden provides information desks that address function, space, and design.

CRI

The CRI (Circulation, Reference, and Information) desk addresses the needs of librarians in a versatile line that can be reconfigured and adjusted to fit a variety of spaces and uses. This desk has become the focal point of the library - the major point of service, traffic and information.

Liberty Desk

The Liberty Desk is a combination of quality and affordability designed to meet the needs of circulation, reference and information functions in learning spaces. With the right options you can create a perfect working space ready to stand up to any high-traffic, well used environment.

Custom Desks

If you can dream it, we can build it. We combine our deep knowledge of the industry with time-honed skills and technology to create innovative, inviting solutions for information, reference or circulation purposes. Worden has one of the largest millwork/specialty shops in the business where we create unlimited custom designs perfectly suited to any environment.

Seating

Have a seat.

What good is a table without a comfortable chair to pull up to it? We have everything you are looking for in a chair - comfort, style, color options, mobility, and durability. Worden chairs pair perfectly to our table collections. Have a seat, try them out...we are certain you will find the perfect fit.

Academy

The Academy chair offers a fresh approach to a classic design. Meticulous attention to detail in design and durability makes Academy the perfect choice. Arms or armless, wood or upholstered seat, with a variety of finishes.

Cummings

A chair as innovative as the poet who inspired it - and equally as enduring. Options: arm or armless, aluminum square, wood slat or fully upholstered back and a wood or upholstered seat.

Linden

With graceful curves and a sophisticated style, Linden welcomes you to the table. Available in maple with three different back options and a wood or upholstered seat. Choose the combination you like to create a style all your own.

Cummings Lite

Just like the Cummings chair but in a lighter scaled version. Available with aluminum square, wood slat or fully upholstered backs and a wood or upholstered seat.

diametron

Constructed of steel, these chairs can be finished in any of our standard metal finishes. Plyformed seats and backs are offered in oak, maple or upholstery and in adult or juvenile heights.

Mix & Max

Let your vision and style shine through with our versatile kid-size furniture. Mix and Max(imize) this collection to make a one-of-a-kind space for children to create, learn, engage and grow.

Jill

A close relative to our TJ chair. Jill features a plywood frame and ergonomic molded plywood seat and back. The gently shaped curves and durable materials give Jill style and substance. Offered in single or two-toned finishes.

Rhodes

This mission style slat back chair is sure to please. Available in adult or juvenile height, with a wood or upholstered seat, in oak or maple, with arms or without.

Straiter

Straiter stands out as a contemporary take on the classic ladder back chair. Available with arms, upholstered seat and in a variety of finishes.

Tempus

Dedicated to quality with distinctive design elements, Tempus is built to last. Tempus maintains the highest standards for construction and durability.

Thurber

Thurber's simple, yet distinctive design captures the ultimate details: from the black steel oval shaped legs to the sculpted silhouette of the maple plywood seat.

TJ

TJ is available in three sizes and dozens of options, it's the stackable chair that's perfectly at ease in any social situation. Options include: casters or glides, arms or armless, upholstered seat for adult and youth sizes, laser cut back design, wood stain or 18 color finishes.

Turner

Turner's clean and simple lines show off its fine craftsmanship and beautiful wood, making it a natural in any setting. Available in arm or side chair, wood or upholstered seat and in a variety of finishes.

Whitman

An out of the ordinary, endlessly appealing chair. Exceptionally durable, yet inviting. Arms tapered or turned or not there at all, backs slatted or solid, seats upholstered or not, legs rounded or squared - Whitman offers it all.

Lounge

Sit back and relax.

Learning has never been more comfortable. Worden lounge furniture was created with you in mind, offering you a relaxed, personal environment. Whether you are teaming with a friend or working alone, we have a place that will make you feel at home.

American Classics

Experience the new school of cool. As beautiful as it is useful. American Classics seating combines inviting comfort with functionality for the way people work today, with an optional tablet arm that swings.

Express

On the move? Express is the perfect place to “take five” along the way. Easy rolling front casters and an optional tablet arm help this chair work double-time, meeting your needs as fast as they change.

MySpot

It's fun. A little funky. And just as suited to teaming with a friend as it is to working alone. We wouldn't call it MySpot without giving you plenty of ways to make it your own. Start with 1, 1-½, 2, 2+2 or 4-Spot configurations, then add a screen or canopy to create the perfect spot.

Parc

Be part of the sophisticated scene in Parc. Add hardworking details like an optional tablet arm, casters and a handle, or field replaceable arms in wood or fabric, and you'll have even more ways to relax and enjoy the view.

Geo

As versatile as a set of building blocks, Geo gives you unlimited ways to mix and match the lounge seating. Create straight lines, arcs, or S-shapes of any length, then shuffle the pieces again when it's time for something new.

inCharge

Innovative, powered by an inCharge Power Hub, has a built-in 2.1 USB charging port and transmits power to connected pieces. Smartly designed on a 28"x28" grid, it uses a unique magnetic system to easily connect to and disconnect from other inCharge pieces.

Regis

The ultimate spot for reading. Regis seating, with its elegant sweeping lines and graceful proportions, is a distinctive and inviting look to any lounge area. Regis is the smart way to create cozy spaces in any learning environment.

Swing

Sit back, relax and drift away in the comfort of Swing. A modern design with a mid-century feel will add fun and personality to your lounge or gathering space. Its light scale design and solid maple construction are the perfect combination of style and strength.

Ottomans & Occasional Tables

Put your feet up.

Our ottomans and occasional tables are not only great accent pieces, they provide a place to rest your feet, put your drink and let you spread out so you can do your best work.

2000, 3000 and 4000 Series Occasional Tables

2000 Series tables have an open, leg-style design. 3000 Series features a solid base and top offset by a deep reveal. 4000 Series drum tables have distinctive veneer wrapped bases. All styles are available in standard oak or maple finishes.

Geo Connectors & Stool

The Connector tables and stool are essential parts of Geo building set, allowing for endless seating configurations. Create straight lines, arcs, or S-shapes of any length. The tables are available in veneer, laminate, and low-profile upholstery top.

American Classics Occasional Tables

The American Classics line is complete with these charming occasional tables - pairing perfectly with AC lounge chairs and settees. Available as a side or coffee table. Add the finishing touches to your lounge area with tables that are as useful as they are beautiful.

inCharge

inCharge occasional tables beautifully complement inCharge lounges and benches. Metal legs can be fixed or on casters for easy mobility

Ottomans

This mobile piece of furniture touts many forms and functions. Treat it as a table or an extra seat. And by all means, slide it up to a sofa or chair to elevate your feet.

Blumen Stool

These free-standing mobile stools are equipped with spring-loaded retracting casters. Paired with the organic shape of the Blumen table they create an inviting gathering place for projects, presentations, and socializing.

rockerDot

The perfect pull-up. The rockerDot is the ideal impromptu solution. Grab this versatile and active seat and go wherever creativity demands.

Custom

Building Your Vision Into Furniture

Custom design, engineering support and manufacturing excellence creates beautifully functioning spaces. Nothing makes us happier than taking your ideas from a simple sketch or conversation to a real product. So go ahead start dreaming. There's no limit to what we can do.
