

STOP SEEING RED, **START MAKING GREEN.**

Our digitization services for the finance industry include **one of the most secure chain of custody and document scanning methods in the industry.** With the unpredictability of varying interest rates, organization audits from the SEC, and mortgage loan transfers, it's important now more than ever to have a dependable partner to **keep your financial institution in compliance and your files safely out of harm's way.**

Our team of finance digitization experts are thoroughly trained in multiple compliance regulations, like **PCI-DSS (Payment Card Industry Data Security Standard), SOX (Sarbanes-Oxley Act), & GLBA (Gramm-Leach-Bliley Act),** so your business stays regulated and protected against any potential personally identifiable information (PII) breaches.

Additionally, our high-security headquarters facility allows us to **scan financial documents in a compliant, secure, and controlled environment** only accessible by vetted personnel.

With this system in place, your finance department can focus on providing better support for your clients, your staff, and you. **Contact us today to learn more.**

AUDIT-PROOF **DIGITAL SECURITY.**

Financial records are some of the most highly sensitive documents of any person. For this reason, these files must be kept **well protected and safeguarded from data breaches and unauthorized access.** In our highly-monitored transformation area, our **finance digitization pros will quickly scan, revise, and improve your files** using advanced optical character recognition before migrating them back to your institution's database. You'll then be able to:

- **Store records in accordance to SOX & GLA compliance**
- **Track, search & manage your digital & physical records**
- **Retain required financial records for the right timeframe**
- **Provide audit trails & reporting on all financial records**
- **Relocate & reduce your off-site storage costs**
- **Remain highly regulated & avoid compliance fees**
